

Members Only Library – Quick Search Tips

Browse the Brain Trust!

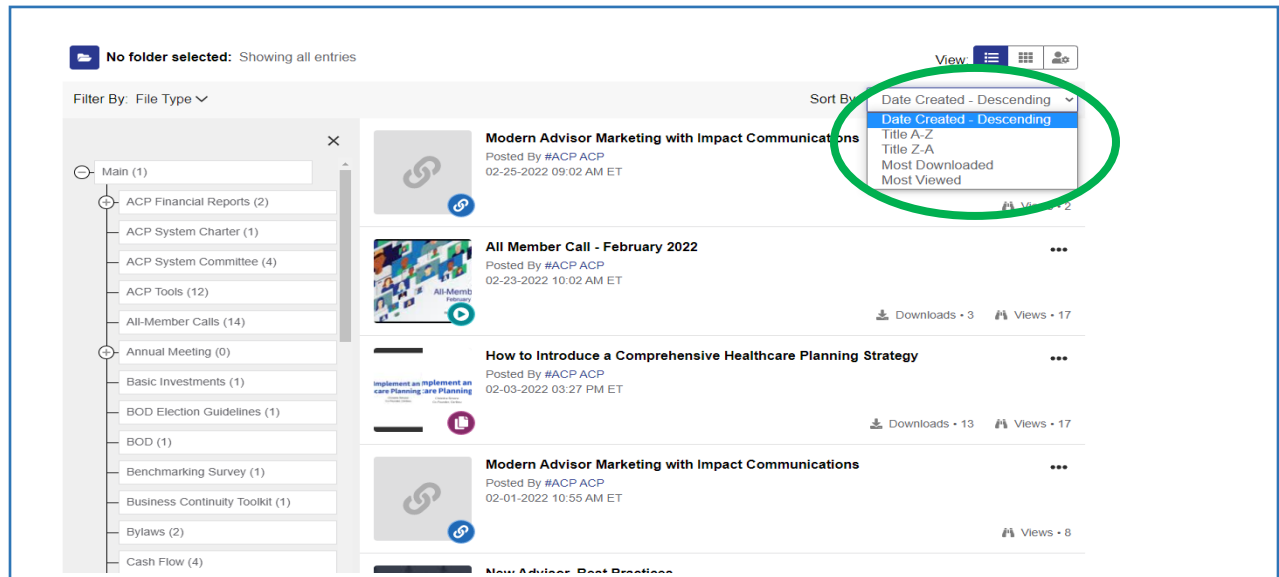

To access the Members Only Library, click “Resources” from the ACPConnect home page navigation bar and select “Members Only Library”.

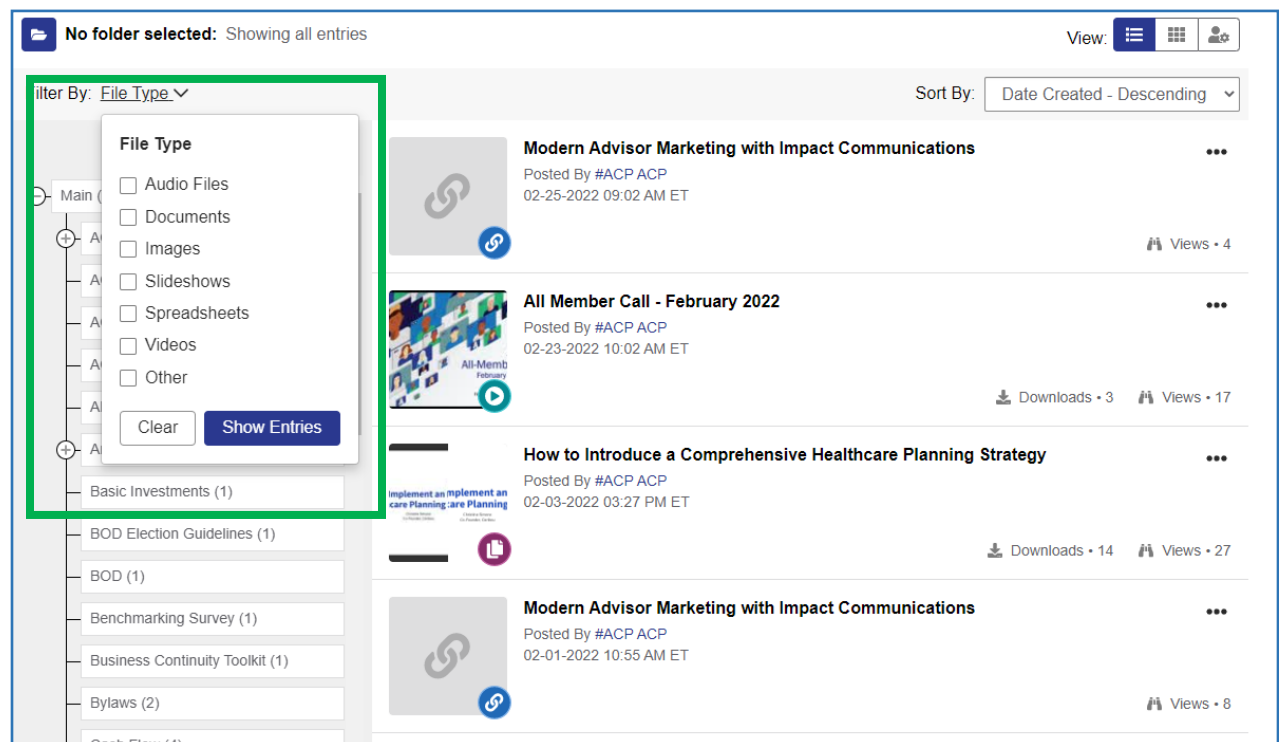

The first files you will see are those with the most views/downloads.

Scroll down to browse the most recent posts (in the middle of your screen), with the option to sort by other filters on the right.

Or browse by file type on the left.

You may also browse the topic category folders. For example, to listen to session recordings from an ACP conference, click on the plus (+) sign next to “Conferences”, then select the desired year.

The screenshot shows a web application interface for browsing documents. On the left is a sidebar with a 'Filter By: File Type' dropdown and a list of category folders. The 'Conferences' folder is highlighted with a green box and contains a plus sign. Below it, a list of years is shown: 2021 Conference Presentations (21), 2020 Conference Presentations (17), 2019 Conference Presentations (28), 2018 Conference Presentations (28), 2017 Conference Presentations (29), 2016 Conference Presentations (33), and 2015 Conference Presentations (25). The main area on the right displays a list of documents, each with a thumbnail, title, author, date, and download/view statistics. The documents listed are: 'Marketing Success The ACP Way', 'Financial Therapy 101', 'The Fundamental Do and Do Nots of Insurance', 'Applying the Tools of the Masters', and 'Nuts & Bolts of the Strategic Financial Review (Paid First Appointment)'.
